About

StCatsHacks Mini is a student hackathon, run by CS students at St. Catherine's British School. On 11th December 2022, around 150 makers and hackers will join us for 9 hours (in total) of hard work and loads of fun.

Scope

StCatsHacks 2022 is the fourth edition of the inter-school hackathon held in Greece. Computer Science lower-school, high-school and university students will convene at St. Catherine's British School for the one day mini hack programming competition. In teams of 4, with access to APIs and the guidance of dedicated mentors, students are called to create innovative computer programs which will be evaluated on their functionality and applicability in the real world. This year's theme is the UN 17 Development Goals. Examples of the application of such programs include aiding the refugee community, automating logistical processes in schools, but any idea of your own could be apt. Food will be available for all participants and winners will be receiving awesome prizes. We look forward to seeing you all on December 11th.

Who we are

We are computer science students from St. Catherine's British School hoping to organize an inter-school hackathon that will incentivize students to put their innovative skills to the test. The competitive nature of the hackathon allows for rigorous and collaborative thinking. We hope to create an annual hackathon for high-school students to showcase their skills in the field of STEM.

Where

- St. Catherine's British School's Main Hall

When

December the 11th, starting at 10 AM. Students will be able to register via [our website](#) until 1 day before the event.

Who

We expect 150 lower and high-school and university students.

Why we want you

We would like you to be a part of StCatsHacks because we know that you will add value and help us organize an awesome event.

How you can get involved

- cover venue expenses
- cover expenses in wish list
- offer internships to winners
- send mentor(s) and/or judges
- provide exclusive access to courses

How you will benefit

- **Gain Student Awareness:** thanked at kickoff & award, logos on online & print material, company banner
- **Run workshops & Tutorials:** Catch students' eyes with your groundbreaking technology

Prizes

- Gift- Cards
- Internship
- Exclusive access to courses
- Mentoring

Wish list

- Snacks & Drinks
- Shirts
- Badges
- Coffee
